FOUNDERS JOHN FEARON  
AND JAMES BASSANT  
CAME TOGETHER IN  
1997 TO CREATE ASTRO  
LIGHTING, WITH A SHARED  
COMMITMENT TO BRITISH  
LIGHTING DESIGN  
AND A PASSION FOR  
QUALITY AND PRECISION.

# DESIGN & QUALITY

Guided by a creative ethos that good design demands simplicity, our team of in-house designers strive to create lighting that will stand the test of time. Focusing on the essential elements, our designs are pared back and well considered, a timeless addition to any space.

We are committed to quality, obsessing over the finer details and pushing engineering boundaries. Every Astro design is crafted from the highest quality materials and put through a programme of rigorous in-house and external laboratory testing in order to deliver a product that you can trust.

## LED DRIVERS\*

**GB** Most LED light fittings require a Driver to be used, which reduces the current from the mains down to the very small current needed by the LED. Astro supplies three types of LED light:

- ▶ Light fitting supplied with a Driver
- ▶ Driver supplied separately
- ▶ No Driver required (the light is designed to connect directly to the mains)

If your LED light requires a Driver, Astro offers a range of high quality Drivers from a number of reputable manufacturers that are designed to work on many commonly found dimmers and lighting control systems. Please refer to the 'Driver Guide' section on our website [astrolighting.com](http://astrolighting.com) for further information on choosing the right Driver, specification and installation.

**FR** La plupart des luminaires à LED nécessitent un Driver pour fonctionner : ce dispositif réduit le courant délivré par le secteur et le ramène à un courant très faible nécessaire au fonctionnement d'une LED. Astro propose 3 types de luminaires à LED :

- ▶ Luminaire équipé d'un Driver
- ▶ Driver fourni séparément
- ▶ Pas de Driver requis (le luminaire est conçu pour être directement branché sur le secteur)

Si votre luminaire à LED nécessite un Driver, Astro propose une gamme de Drivers haute qualité, issus de fabricants de renom, conçus pour fonctionner sur de nombreux variateurs et systèmes de contrôle de l'éclairage que l'on trouve communément. Pour obtenir de plus amples informations sur la façon de choisir le driver adéquat, sur les spécifications et l'installation, veuillez vous reporter à la section "Guide des drivers" de notre site web : [astrolighting.com](http://astrolighting.com)

**DE** Die meisten LED-Leuchten benötigen einen Treiber, der den Netzstrom auf den sehr niedrigen Strom, den die LED benötigt, reduziert. Astro liefert drei Arten von LED-Leuchten:

- ▶ Leuchten mit im Lieferumfang enthaltenem Treiber
- ▶ Treiber werden separat geliefert
- ▶ Kein Treiber erforderlich (die Leuchte kann direkt an das Stromnetz angeschlossen werden)

Sollte Ihre LED-Leuchte einen Treiber benötigen, bietet Astro Lighting eine Reihe hochwertiger Treiber von namhaften Herstellern an, die so konzipiert sind, dass sie mit vielen der geläufigsten Dimmern und Lichtsteuersystemen funktionieren. Weitere Informationen zur Auswahl des richtigen Treibers sowie zu Spezifikation und Installation finden Sie im Treiberleitfaden auf unserer Website [astrolighting.com](http://astrolighting.com).

**IT** La maggior parte degli apparecchi di illuminazione LED richiedono un driver, che riduce la quantità di corrente proveniente dalla rete al livello inferiore richiesto dal LED. Astro fornisce tre tipi di soluzioni di illuminazione LED:

- ▶ Apparecchio di illuminazione dotato di driver
- ▶ Driver fornito separatamente
- ▶ Nessun driver richiesto (l'apparecchio di illuminazione è ideato per collegarsi direttamente alla rete)

Se il vostro apparecchio di illuminazione LED richiede un driver, Astro offre una vasta gamma di driver di alta qualità forniti da diversi rinomati produttori, che sono ideati per funzionare sui dimmer e sistemi di controllo dell'illuminazione più comuni. Si veda la sezione 'Guida ai driver' sul nostro sito web [astrolighting.com](http://astrolighting.com) per ulteriori informazioni sulla scelta del driver ideale, per specifiche e modalità di installazione.
