We provide our products and services in accordance with our terms and conditions of payment and delivery. You can get them on request or with www.paulmann.com

Todo pedido implica la aceptación de nuestras condiciones de pago y suministro. Nos las puede solicitar o ver en www.paulmann.com

Lavoriamo sulla base delle nostre condizioni di fornitura e di pagamento. Queste sono disponibili su richiesta all'indirizzo www.paulmann.com

All about light

Paulmann Licht GmbH, located in Springe in Lower Saxony (Germany), offers over 2500 innovative products; as one of the leading manufacturers in the light industry, we are able share our expertise – from luminaires through luminaire systems to a complete bulb assortment with many speciality lamps.

Paulmann products appeal to your customers with feel-good lighting, modern design and high energy efficiency.

Sales offices and agencies in around 40 countries in Europe ensure that customers receive direct, local support.

Todo alrededor de la luz

Paulmann Licht GmbH con sede en Springe, Baja Sajonia (Alemania), con sus más de 2500 productos innovadores, es uno de los proveedores líderes en el sector de luminarias y ofrece soluciones competentes para toda la gama de productos: desde lámparas y sistemas de iluminación hasta un surtido completo de luminarias con muchas especialidades.

Los productos Paulmann entusiasman a sus clientes por su luz agradable, diseño actual y alta eficiencia energética.

Gracias a las sucursales y representaciones en cerca de 40 países de Europa, los clientes reciben un asesoramiento individual y sin desplazamientos.

Tutto per la luce

Con oltre 2500 prodotti innovativi Paulmann Licht GmbH, che ha sede a Springe (Bassa Sassonia, Germania), è uno dei fornitori leader nel settore dell'illuminazione. Le sue competenze coprono l'intero assortimento: dai singoli apparecchi ai sistemi d'illuminazione fino a un assortimento completo di lampadine che vanta prodotti esclusivi.

I prodotti Paulmann soddisfano i clienti con la loro luce per il benessere, il design moderno e l'elevata efficienza energetica.

Grazie alle nostre filiali e rappresentanze in approssimativo 40 Paesi europei, i clienti possono usufruire di un'assistenza individuale direttamente in loco.

Paulmann Easy-to-Shop concepts

Paulmann Easy-to-Shop concepts are product advisors. Illuminated product samples, competent explanations and appealing pictures create a desire for feel-good lighting. The packaging helps with product selection with large illustrations and clearly structured information. The optimized placement concept ensures increased productivity for your space.

Conceptos de presentación Easy-to-Shop de Paulmann

Los conceptos de presentación Easy-to-Shop de Paulmann venden el producto. Las muestras iluminadas, las explicaciones competentes y las simpáticas ilustraciones animan a invertir en luz como fuente de bienestar. Los paquetes con información claramente estructurada y grandes ilustraciones ayudan a decidirse por el producto. El optimizado concepto de colocación permite conseguir una mayor productividad de su superficie expositora.

Function

I punti vendita Paulmann sono concepiti come luoghi di invito all'acquisto.

I punti vendita Paulmann sono concepiti come luoghi di informazione sui prodotti e invito all'acquisto. Esempi di prodotti con la giusta illuminazione, spiegazioni competenti e immagini accattivanti stimolano il desiderio di una luce portatrice di benessere. Gli imballaggi aiutano nella scelta dei prodotti grazie a illustrazioni in grande scala e informazioni chiare e ben strutturate. Un sistema ottimizzato di collocazione dei prodotti garantisce inoltre una maggiore produttività della superficie disponibile.

Neordic

Neordic living area luminaires – new, Nordic, natural

The Neordic series pendant, floor, table and wall/ceiling luminaires match the latest trend in Scandinavian-inspired design.

Simple elegance, natural materials and pleasant colour combinations create a homely atmosphere and add warm, Nordic accents to your home.

Natural cork in conjunction with black and brushed brass perfectly match the latest “Urban Jungle” trend.

Real wood with warm light shining through meets copper and concrete, creating a harmonious alliance with gold and soft green. Black or white marble with gold and glass, matt black metal and bright fabric, or simple concrete with elegant metal frames – this is how versatile modern Neordic styles can be. And with the large selection of decorative Paulmann LED lamps, the Neordic luminaires can be ideally completed.

Lámparas para el hogar Neordic: nuevas, nórdicas, naturales

Las lámparas colgantes, de pie, de sobremesa, de pared y de techo de la serie Neordic siguen la tendencia actual del diseño de inspiración escandinava.
Elegancia sencilla, materiales naturales y combinaciones de colores agradables enriquecen el ambiente del hogar, aportando acentos nórdicos y, a la vez, cálidos.
El corcho natural combinado con el negro y el latón mateado encaja a la perfección con la megatendencia «Urban Jungle».
La madera auténtica, iluminada cálidamente, se combina con el cobre y el hormigón, pero también crea una alianza armoniosa con los colores oro y verde satinado. Mármol negro o blanco con oro y cristal, metal negro mate y materiales textiles claros u hormigón sencillo con un elegante casquillo de metal: los modernos mundos de estilo Neordic son de lo más variado. Además, las luminarias Neordic se pueden equipar perfectamente con la amplia selección de decorativas lámparas LED de Paulmann.

Neordic Luci per locali abitativi - nuove, nordiche, naturali

Le lampade a sospensione, da terra, da tavolo e da parete/soffitto della nuova serie Neordic seguono pienamente la tendenza del design di ispirazione scandinava.
Eleganza sobria, materiali naturali e piacevoli combinazioni di colori arricchiscono l’ambiente della vostra casa, dando un tocco nordico e allo stesso tempo caldo.
Il sughero naturale in combinazione con l’ottone nero e spazzolato è perfetto per il Megatrend “Urban Jungle”.
Vero legno, caldamente illuminato, abbinato a rame e calcestruzzo crea anche con l’oro e il verde tenue un’unione armoniosa.
Marmo nero e bianco con oro e vetro, metallo nero opaco e tessuto chiaro o calcestruzzo sobrio con raffinato portalampada in metallo: i moderni stili Neordic sono estremamente versatili. Inoltre l’ampia gamma di lampadine LED decorative Paulmann è il completamento perfetto delle lampade Neordic.

Downlights | Decorative

Recessed luminaires provide pure light, whilst the visual presence of the luminaire is kept discreet. Whether used as basic lighting or to accentuate, these light sources are as decorative as they are practical.
Luminarias empotrables en el techo para la iluminación moderna de interiores.

Las luminarias empotrables proporcionan una luz pura con una presencia visual discreta de la luminaria. Son unas fuentes de luz tan decorativas como prácticas, ya sea como luz de fondo o para crear acentos.
Faretti da incasso a soffitto per illuminazione moderna d'atmosfera.

Le lampade da incasso offrono luce pura e allo stesso tempo la loro presenza è discreta. Si possono utilizzare per l'illuminazione generale o per porre accenti luminosi e sono anche luci decorative e pratiche.

Downlights | Panels

Recessed luminaires provide pure light, whilst the visual presence of the luminaire is kept discreet. Whether used as basic lighting or to accentuate, these light sources are as decorative as they are practical.
Luminarias empotrables en el techo para la iluminación moderna de interiores.

Las luminarias empotrables proporcionan una luz pura con una presencia visual discreta de la luminaria. Son unas fuentes de luz tan decorativas como prácticas, ya sea como luz de fondo o para crear acentos.
Faretti da incasso a soffitto per illuminazione moderna d'atmosfera.

Le lampade da incasso offrono luce pura e allo stesso tempo la loro presenza è discreta. Si possono utilizzare per l'illuminazione generale o per porre accenti luminosi e sono anche luci decorative e pratiche.

Coppa da incasso

Metal Metal Metallo

- The recessed installation pot is a perfect addition for the installation of swivelling recessed luminaires – simply attach it to the recessed luminaire to protect the luminaire and e.g. insulation materials.
- Socket included
- Connection with the help of a junction box

- La cavidad de montaje es el complemento ideal para la instalación de luminarias empotrables orientables; acoplada a la luminaria empotrable, sirve de protección tanto para la luminaria como para, p. ej., materiales aislantes.
- Portalámparas incluido
- Conexión con ayuda de una caja de empalmes

- La coppa da incasso è il complemento ideale per l'installazione di lampade a incasso orientabili: semplice da applicare sulla lampada da incasso protegge la lampada e ad es. i materiali isolanti.
- Attacco lampadina incluso
- Collegamento tramite scatola di collegamento

URail – the flexible 230V rail system from Paulmann

Maximal multifunctionality: URail is the universal 230 V-rail system for direct ceiling mounting or otherwise with ceiling clearance and that completely without transformer. Complete sets, spots, pendants and the rails are available in the material colours chrome matt or white.

URail – El flexible sistema de raíles a 230V de Paulmann

Máxima versatibilidad: URail es el sistema universal de raíles de 230 V para el montaje directo en el techo o con separación opcional del techo, sin necesidad de transformador. Tanto juegos completos como focos, lámparas colgantes y raíles están disponibles en material de color cromo mate o blanco.

URail – Il sistema di illuminazione a binario flessibile da 230 V Paulmann

Massima versatilità: URail è il sistema di illuminazione universale a binario da 230 V per il montaggio diretto a soffitto o, a scelta, con distanza dal soffitto. Il tutto senza l'impiego di trasformatore. Set completi, spot, sospensioni e binari disponibili nei colori cromo opaco o bianco.

- Middle feed with rails with separately switchable outputs
- For domestic electrical installations with 4/5-core wiring and series switch
- With cable bridge also suitable for 3-core wiring with toggle switch (then it cannot be switched separately)

- Alimentación central en forma de raíl con salidas conmutables por separado
- Para instalaciones domésticas con cableado de 4/5 conductores e interruptor de serie
- Con puente para cable, también es apto para el cableado de 3 conductores con conmutador (en este caso, no es posible la conmutación separada)

- Alimentazione centrale tramite binario con uscite commutabili separatamente
- Per installazioni domestiche con cablaggio a 4/5 fili e interruttori in serie
- Con canalina passacavi adatta anche per cablaggio a 3 fili con deviatore (in questo caso non commutabile separatamente)

- Remote control for ease and convenience when switching or dimming URail systems.
- The receiver integrated in an adapter controls all of the subsequent sections of the system.
- The four function buttons on the remote control can be used to control two separate switches and two dimming processes.

- Mando a distancia para encender/apagar o regular cómodamente sistemas URail.
- El receptor integrado en un conector gobierna todas las subsiguientes secciones del sistema.
- Con las cuatro teclas de función del mando a distancia pueden controlarse 2 procesos de regulación o 2 circuitos separados.

- Telecomando per accendere, spegnere o variare comodamente l'intensità degli URail System.
- L'apparecchio ricevente, integrato in un elemento di connessione, comanda tutti i successivi segmenti del sistema.
- Tramite i quattro pulsanti del telecomando è possibile comandare due interruttori di accensione/spegnimento separati oppure due processi di variazione dell'intensità.

- Allows single heads and group switching functions to be controlled to switch between different lighting scenarios (as with a 2-phase rail system)
- All groups can be switched by remote control.
- Filigree look of the wireless electronics casing
- Max. 50 W per adapter, also suitable for halogen lamps

- Permite controlar cabezales individuales y grupos interconectados, de manera que se pueden controlar diferentes escenarios de iluminación (como en un sistema de raíles de dos fases)
- Posibilidad de controlar todos los grupos con mando a distancia.
- Carcasa estilizada para el sistema electrónico del control inalámbrico
- Máx. 50W por adaptador, también apropiado para luminarias halógenas

- Consente il comando di singoli apparecchi e di gruppi, pertanto è possibile creare diversi scenari luminosi (come per il sistema a binario bi-fase)
- Tutti i gruppi sono controllabili tramite telecomando
- Alloggiamento filigranato per l'elettronica radio
- Max. 50W per adattatore, idoneo anche per apparecchi alogeni

NanoRail: a slimline system in a minimalist design

The 24-volt LED rail system impresses with its timelessly elegant appearance. The slimline design removes the rail and luminaires from the field of vision and the light works all by itself. The luminaires are design pieces with clean lines that impress with their outstanding lighting effect - from concentrated spotlighting to wide-angle room lighting.
Thanks to the slim matt-white rails and luminaires, the system blends in seamlessly with white ceilings. Various connectors allow you to arrange the rails to your needs, allowing you to perfectly accentuate your interior design.

NanoRail: sistema de filigrana con un diseño minimalista

El sistema de raíles LED de 24 V seduce con su estética elegante e intemporal. El diseño de filigrana desvía la atención del raíl y las luminarias para dar el protagonismo a la luz. Las luminarias son elementos de diseño rectilíneos que convencen por su excelente efecto lumínico: desde el foco con un haz estrecho hasta la iluminación de distribución extensiva.
Gracias a los raíles y las luminarias esbeltos de color blanco mate, el sistema se funde visualmente con los techos blancos. Diversos conectores posibilitan la conducción individual de los raíles. De este modo, la iluminación consigue una puesta en escena perfecta para la decoración de la estancia.

NanoRail: sistema filigranato in design minimalistico

Il sistema a binario LED da 24 Volt convince per la sua estetica elegante e senza tempo. Il design filigranato rimuove binario e apparecchio dal campo visivo valorizza la luce in sé. Gli apparecchi sono oggetti di design dalle linee dritte che affascinano per lo straordinario effetto luminoso, da spot focalizzati stretti a luce d'ambiente diffusa. Grazie ai binari sottili e agli apparecchi bianco opaco, il sistema quasi si fonde con i soffitti bianchi dei locali. Diversi connettori consentono una guida personalizzata dei binari. In questo modo, l'illuminazione valorizza gli ambienti alla perfezione.

2Line: innovative, delicate lighting system

2Line is the next generation of cable lighting systems in the timeless, elegant Paulmann design. On their slender cables, the spots seem to float in the room – this global innovation completely eclipses conventional cable systems.
Clever mounting system: the Basic sets contain an attachment with a ball joint, thus permitting significantly easier assembly. The 24-volt direct current offers users maximum safety.
Get smart: the 2Line Basic sets are also available as up-to-date Bluetooth Smart Home versions!

2Line: sistema de iluminación innovador y sofisticado

2Line es la nueva generación de sistemas de iluminación de cables en un diseño Paulmann elegante y atemporal. Los focos parecen flotar por la estancia en los cables de filigrana. Esta novedad mundial eclipsa a los sistemas de cables clásicos.
Un sistema de montaje inteligente: los Basic Sets incluyen una fijación con rótula, de modo que facilitan notablemente el montaje. La corriente continua de 24 voltios asegura la máxima seguridad al usuario.
Get smart: ¡los Basic Sets 2Line también están disponibles como versión actual Bluetooth Smart Home!

2Line: sistema di illuminazione innovativo e filigranato

2Line rappresenta la successiva generazione dei sistemi di illuminazione a filo nel design Paulmann elegante e senza tempo. Sui fili filigranati, gli spot sembrano oscillare nell'ambiente: questa novità mondiale eclissa i sistemi a fili classici.
Sistema di montaggio intelligente: i Basic Set comprendono un fissaggio con giunto sferico e consentono un montaggio molto più semplice. Grazie alla tensione continua di 24 Volt, all'utilizzatore si garantisce la massima sicurezza.
Get smart: i 2Line Basic Set sono attualmente disponibili anche in versione Bluetooth Smart Home!

Cable systems are a flexible solution for making your own four walls appear in the right light. Installing the live cables is simple and, thanks to modern 12 V technology, safer and much simpler than conventional 230 V installations. Even in difficult spaces (e.g. slanted ceilings or around corners), cable systems are the ideal lighting solution. By using deflectors (sold separately), entire living areas can be completely illuminated using just one installation. With more than 30 different complete sets to choose from you are sure to find something to suit your taste. The wide variety of luminaires provides the right solution for every need: Everything from directed light for individual object illumination to soft light distribution for uniform basic lighting is possible.

Los sistemas de cables son una solución flexible para poner en escena la vivienda. El tendido de los cables eléctricos no presenta ningún problema; gracias a la moderna tecnología de 12 V, es más seguro y mucho más sencillo que en las instalaciones convencionales de 230 V. Incluso en situaciones de espacio difíciles (p. ej., techos inclinados o conexiones en ángulo), los sistemas de cables ofrecen soluciones de luz óptimas. El uso de deflectores (disponibles por separado) también permite iluminar de forma extensa zonas completas de la vivienda con una única instalación. Los más de 30 juegos completos se adaptan a todos los gustos en la decoración. La variedad de luminarias disponibles ofrece la solución adecuada para todas las necesidades: permiten crear tanto una luz dirigida para la iluminación individual de objetos como una distribución lumínica suave para una iluminación de fondo uniforme.

I sistemi a filo sono una soluzione flessibile per dare la giusta illuminazione alla propria casa. La posa dei fili elettrici non presenta alcun problema e grazie alla moderna tecnologia a 12V è più sicura e semplice rispetto alla normali installazioni da 230V. I sistemi a filo forniscono soluzioni luce ideali anche in situazioni difficili (ad es. soffitti inclinati o collegamenti angolari). Utilizzando deviatori (disponibili come optional) si possono illuminare perfettamente interi spazi abitativi con una sola installazione. Più di 30 set completi soddisfano ogni gusto abitativo. La varietà di lampade disponibili offre la giusta soluzione per ogni tipo di esigenza: si può ottenere una luce direzionata per l'illuminazione personalizzata di oggetti ma anche una delicata distribuzione della luce per un'illuminazione di base e uniforme.

Cable systems are a flexible solution for making your own four walls appear in the right light. Installing the live cables is simple and, thanks to modern 12 V technology, safer and much simpler than conventional 230 V installations. Even in difficult spaces (e.g. slanted ceilings or around corners), cable systems are the ideal lighting solution. By using deflectors (sold separately), entire living areas can be completely illuminated using just one installation.

Los sistemas de cables son una solución flexible para poner en escena la vivienda. El tendido de los cables eléctricos no presenta ningún problema; gracias a la moderna tecnología de 12 V, es más seguro y mucho más sencillo que en las instalaciones convencionales de 230 V. Incluso en situaciones de espacio difíciles (p. ej., techos inclinados o conexiones en ángulo), los sistemas de cables ofrecen soluciones de luz óptimas. El uso de deflectores (disponibles por separado) también permite iluminar de forma extensa zonas completas de la vivienda con una única instalación.

I sistemi a filo sono una soluzione flessibile per dare la giusta illuminazione alla propria casa. La posa dei fili elettrici non presenta alcun problema e grazie alla moderna tecnologia a 12V è più sicura e semplice rispetto alla normali installazioni da 230V. I sistemi a filo forniscono soluzioni luce ideali anche in situazioni difficili (ad es. soffitti inclinati o collegamenti angolari). Utilizzando deviatori (disponibili come optional) si possono illuminare perfettamente interi spazi abitativi con una sola installazione.

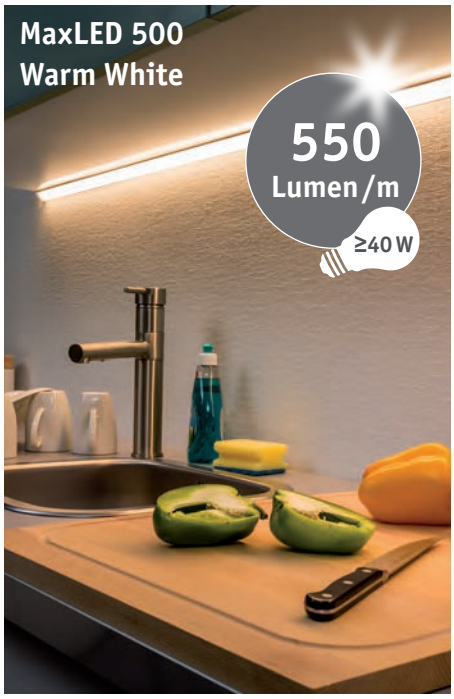
270 MaxLED Flow

294 FlexLED



- With their powerful brightness, MaxLED LED strips open up completely new ideas for general room and work lighting
- Dense LED placement provides a continuous light pattern - ideal for use in profiles
- 1m MaxLED 1000 strip corresponds approximately to a 75 W incandescent bulb in terms of the lighting quality
- MaxLED is available in an expandable basic set of comfortable warm white - 2700 K, daylight white - 6500 K or as an RGB colour change system with remote control
- Light you can stick on: thanks to the adhesive strips on the reverse, it can be positioned quickly without tools

- Con su luminosidad, las regletas de LEDs MaxLED abren posibilidades novedosas para la luz del hogar y del trabajo
- Su alta densidad de LEDs crea un hilo continuo de luz: ideal para instalar en perfiles y molduras
- La regleta MaxLED 1000 de 1 m equivale al efecto lumínico de una bombilla incandescente de 75 W
- Los sets básicos ampliables de MaxLED se ofrecen en blanco cálido acogedor - 2700 K, luz blanca diurna - 6500 K o como luz de color cambiante RGB con mando a distancia
- Luces autoadherentes: gracias a la tira adhesiva de su reverso se tienden rápidamente sin necesidad de herramientas

- Grazie a un'elevata potenza luminosa, le strisce di LED MaxLED aprono scenari completamente nuovi per l'illuminazione generale di spazi abitativi e ambienti di lavoro
- L'alta concentrazione di LED garantisce una luce continua, ideale per l'integrazione in profilati
- Una striscia MaxLED 1000 da 1 m assicura un effetto luminoso comparabile a quello di una lampada a incandescenza da 75 W
- MaxLED è disponibile nei set di base ampliabili in confortevole bianco caldo (2700 K), bianco naturale (6500 K) o con cambio di colore RGB tramite telecomando
- Luce incollabile: installazione rapida senza bisogno di attrezzi grazie alla striscia adesiva sul retro

- MaxLED Flow – get out of the shadows and into the lime light
- No LEDs to see, even when turned off: The strip can be placed out in the open on your walls or furniture
- The slender 1x1cm dimensions suit any furnishing style
- Incl. transparent clip holder, screws and wall anchors. The strip can be installed straight or in creative patterns to create illuminating wall decorations.
- The light effect on the wall is particularly striking as the strip has a beam angle of 180 degrees
- Can be combined with all MaxLED accessory components like connectors (RGB and Warm White) and controllers (Warm white)

- MaxLED Flow - basta de esconderse: ¡salimos al escenario!
- Incluso en estado apagado no se pueden ver los LED: El Strip se puede posicionar de manera abierta en la pared, en elementos de equipamiento o en muebles
- Las dimensiones delicadas de 1x1 cm se adaptan a cualquier estilo de decoración
- Incluye fijaciones por presilla, tornillos y tacos. El Strip se puede instalar en línea recta. Para una solución más creativa, también es posible curvar el strip de manera flexible, por ejemplo como adorno luminoso en la pared.
- El efecto lumínico en la pared es especialmente llamativo, dado que el Strip posee un ángulo de irradiación de 180° grados
- Se puede combinar con todos los accesorios MaxLED, tales como conectores (RGB y Blanco cálido) y controles (Blanco cálido)

- MaxLED Flow - basta stare in ombra, ecco le luci della ribalta
- Anche quando sono spente, il LED non è visibile: la Strip può essere posizionata in un'area visibile della parete o su mobili
- La misura filigranata di 1x1cm è perfetta per ogni stile di arredamento
- Include supporti a clip trasparenti, viti e tasselli. La Strip può essere posata perfettamente in rettilineo. Chi preferisce una soluzione più creativa può anche posare la Strip creando curve sinuose, ad es. per ottenere ornamento luminoso della parete.
- L'effetto luminoso sulla parete è particolarmente suggestivo, perché la Strip ha un angolo emissione di 180° gradi
- Può essere combinato con tutti gli accessori MaxLED, quali connettori (RGB e Bianco caldo) e sistemi di comando (Bianco caldo).

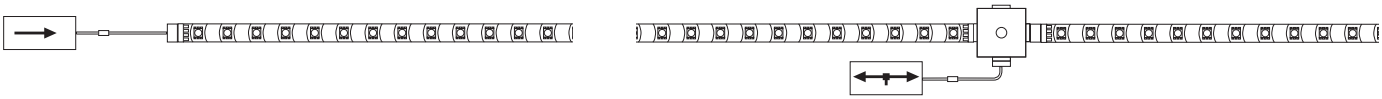
Maximum total length of your system:	15 W	48 W		60 W	
	→	→	↔	→	↔
YourLED	**5 m**	**10 m**	**20 m** (10 m + 10 m)	**12 m**	**24 m** (12 m + 12 m)
YourLED ECO	**6 m**	**12,5 m**	**25 m** (12,5 m + 12,5 m)	**15 m**	**30 m** (15 m + 15 m)
YourLED **RGB**	**2 m**	**4 m**	**8 m** (4 m + 4 m)	**5 m**	**10 m** (5 m + 5 m)
YourLED ECO **RGB**	**2,5 m**	**6 m**	**12 m** (6 m + 6 m)	**8 m**	**16 m** (8 m + 8 m)



→ Maximum length for strips plugged in directly one after the other.

↔ The first value in parentheses below the total length specifies the maximum route length that can be connected directly to the transformer. For the full length, you also need a junction box or an X-connector to distribute the power.
If further branches go off, the total length is reduced. Add up the individual watt values of the strips to determine the size of the transformer.

→ Máxima longitud para strips encajadas directamente de forma consecutiva.

↔ El primer valor que aparece entre paréntesis debajo de la longitud total indica el tramo máximo que se puede conectar directamente con el transformador. Para la longitud total, necesita adicionalmente una caja de empalmes o un conector X para distribuir la potencia.
En caso de más derivaciones, la longitud total será más corta. Sume los distintos valores de vatios de las strips para determinar el tamaño del transformador.

→ Lunghezza massima per Strips inserite in successione diretta.

↔ Il primo valore tra parentesi sotto la lunghezza complessiva indica la lunghezza di percorso massima che è possibile collegare direttamente al trasformatore. Per l'intera lunghezza, servono inoltre un Junctionbox oppure un connettore a X per distribuire questa potenza.
Con ulteriori diramazioni, la lunghezza totale si riduce. Per calcolare la misura del trasformatore, basta sommare le singole potenze delle Strips.

- LED Strip set with 164 functions for a range of different light effects, can be shortened electronically
- The digital control allows colours to be mixed in dynamic rhythms
- Can be dimmed or switched on or off by remote control.
- 3 LEDs can be disconnected from the strip end in segments. This allows the strip to be installed in a range of locations at the appropriate length.

- Juego de regleta LED electrónica acortable con 164 funciones para diversos efectos lumínicos
- El control digital permite mezclar colores a ritmos dinámicos
- Conmutable y regulable por mando a distancia.
- Desde el extremo de la regleta se pueden desconectar 3 LED por segmento. Así se puede colocar la regleta en la longitud adecuada en distintos lugares.

- Set di strisce LED accorciabili con 164 funzioni per molteplici effetti di luce
- Il sistema di comando digitale consente di miscelare i colori con ritmi dinamici
- Commutabile e regolabile tramite telecomando.
- Dalle estremità delle strisce è possibile disinserire 3 LED per segmento. In questo modo la striscia può essere utilizzata in diversi punti con una lunghezza differente.

- Fully jacketed LED strips for decorative outdoor lighting in the garden, at the property entrance, below lintels, in damp rooms or for many other uses (IP67 - able to withstand immersion in water).
- Plug-and-play: Complete set with plug for easy installation
- Incl. transformer (IP 64: dust-proof and splash-protected).
- Incl. 1 m power cable - 5 m extension cable available as accessory (IP 65: waterjet-protected)
- LED strips can be shortened every 10 cm - end cap and silicone sealing agent incl.
- For loose placement or fixed installation using plastic brackets (incl.)
- Not suitable for use in the vicinity of aggressive chemicals (chlorine water and similar)

- Regletas de red completamente revestidas para iluminación exterior decorativa en el jardín, en la entrada a la casa, bajo el alero, en espacios húmedos y en muchos otros lugares (IP67 - protección contra inmersión en agua).
- Plug'n'play: juego completo listo para enchufar, simplificándose el tendido
- Transformador incl. (IP64 - hermético al polvo y a salpicaduras de agua).
- Cable de alim. de 1 m incl. (prolongador de 5 m disponible como accesorio; IP65 - resistente a chorro de agua proyectada)
- Las regletas de LEDs se pueden recortar cada 10 cm (moldura de cierre y sellado de silicona incluidos)
- Para tendido libre o para fijar con presillas de plástico (incluidas)
- No apto para ambientes con sustancias químicas agresivas (p.ej. agua clorada)

- Strisce di LED rivestite su tutti i lati per illuminazione decorativa di esterni: in giardino, sopra l'ingresso, sotto la traversa del tetto, in ambienti umidi e in molti altri punti (protezione contro l'immersione in acqua - IP67).
- Plug ‚n' play: set completo pronto al collegamento per la massima facilità di posa
- Trasformatore incluso (con protezione contro penetrazione di polvere e spruzzi d'acqua - IP64).
- Cavo di alimentazione da 1 m incluso - Prolunga da 5 m disponibile come accessorio (con protezione dai getti diretti d'acqua - IP65)
- Le strisce di LED sono accorciabili ogni 10 cm - Calotta terminale e sigillante al silicone inclusi
- Per la posa mobile o il fissaggio con staffe in plastica (incluse)
- Non adatte all'impiego in presenza di sostanze chimiche aggressive (acqua clorurata o simili)

- Recessed profile for illumination with LED strips creates attractive lighting effects. Can also be used as orientation and guide lights at shadow and danger zones.
- High-quality aluminium profile with satined cover on which it is safe to walk (can withstand up to 130 kg)
- Uniform light distribution
- Can be installed in milled grooves on materials with a thickness of 12 mm or more or can be permanently glued to laminate flooring, tiles and carpets.
- Incl. end caps
- Not suitable for installation on floating laminate

- Perfil empotrable para iluminación con regletas de LEDs que crea atractivos efectos de luz. Apto también para usar como luz guía o de orientación.
- Perfil de aluminio de excelente calidad con cubierta resistente a la pisada (hasta 130 kg)
- Distribución lumínica uniforme
- Para integrar en materiales a partir de 12 mm de grosor o para pegar de forma fija en baldosas, moquetas o suelos laminados.
- Incluye molduras de cierre
- No apto para suelos laminados flotantes

- Profilo da incasso per illuminazione con strisce di LED, per creare affascinanti effetti luminosi. Utilizzabile anche come luce direzionale o di orientamento.
- Profilato in alluminio di alta qualità con copertura calpestabile (130 kg max.)
- Distribuzione omogenea della luce
- Per montaggio a incasso in materiali a partire da 12 mm di spessore o per incollaggio permanente su laminato, piastrelle e moquette.
- Calotte terminali incluse
- Non adatto per il montaggio su laminato galleggiante

- Decorative ceiling profile for shining indirect light onto the wall with LED strips
- Uniform light distribution
- End caps for straight wall cuts included in scope of supply
- Inner and outer corners available as accessories
- Outer corners can also be used as start and end points on straight sections.
- Can be fastened with customary construction adhesives
- For laying LED strips and cable connections.

- Decorativo perfil de techo para iluminación indirecta de la pared con regletas de LEDs.
- Distribución lumínica uniforme
- Se suministra junto con molduras de cierre para secciones de pared rectas
- Rinconeros y esquineros disponibles como accesorios
- Los esquineros pueden usarse igualmente como punto inicial o final en tramos rectos.
- Fijación mediante adhesivos de construcción comerciales
- Para el tendido de regletas de LEDs y conectores de cables.

- Profilo decorativo per soffitto per l'illuminazione indiretta di pareti con strisce a LED.
- Distribuzione omogenea della luce
- Calotte terminali incluse nel volume di consegna per montaggio anche a metà parete
- Angoli interni ed esterni disponibili come accessori
- Angoli esterni utilizzabili anche come elemento iniziale o finale su un tratto rettilineo.
- Fissaggio con adesivi da costruzione comunemente in commercio
- Per la posa di strisce di LED e connettori per cavi.

- Optimal for sliding doors: Miniature LED light with roller for battery operation. When a cabinet door is opened, the roller automatically switches the light on and off again. Light that is simply there when you need it.
- Easy installation; simply fasten removable mounting base with adhesive pads or screws
- Easily accessible battery compartment
- Operated with 4x1.5V AAA (excl.)
- Clear cover and reflector for optimised light yield

- Ideal para puertas corredizas: miniluminarias de LEDs con rueda corredera para usar a pilas. La rueda enciende y apaga automáticamente la luz al abrirse o cerrarse una puerta del ropero. Sencillamente: luz cuando y donde se necesita.
- Fácil de fijar: base separable que puede fijarse con tornillos o almohadillas adhesivas
- Compartimento de pilas fácilmente accesible
- Funciona con 4 pilas AAA de 1,5V (no incl.)
- Cubierta transparente y reflector para un óptimo rendimiento lumínico

- Ottima per le porte scorrevoli: miniluce a LED con rullino di scorrimento funzionante a batteria. Il rullino di scorrimento accende automaticamente la luce quando una porta dell'armadio viene aperta, e successivamente torna a spegnerla. Per avere la luce giusta al momento giusto - né più, né meno.
- Montaggio semplice con base separabile per fissaggio con cuscinetti adesivi o viti
- Vano batterie facilmente accessibile
- Funzionamento con 4 batterie AAA da 1,5 V (non incluse)
- Copertura trasparente e riflettore per una propagazione ottimale della luce

Plug & Shine

Plug & Shine: the plug system for fascinating garden and patio lighting

Plug & Shine is the perfect solution for unique lighting scenarios for your favourite corners or plants in or around the house and patio. The 24V DC LED cable system is very easy to install and completely safe. In contrast to 230V installations, garden enthusiasts won't have to dig deep trenches with multiple safeties – Plug & Shine cables can be placed above ground and are completely protected against water ingress (IP 68). The clever cable system can be extended to max. 50 metres. That gives garden enthusiasts the necessary flexibility when positioning and expanding their illumination system – simply plug in and enjoy the lighting effects. All luminaires are dimmable, corrosion-protected and water-protected (IP65/67). You can switch and dim your luminaires by remote control or with a ZigBee 3.0 controller.

Plug & Shine: el sistema de conexión para una fascinante iluminación del jardín y la terraza

Plug & Shine es la solución perfecta para la iluminación individual de los rincones y las plantas favoritas de la casa, el jardín y la terraza.
El sistema de cables de tensión continua de 24 V LED es seguro y muy fácil de instalar. A diferencia de las instalaciones de 230 V, los amantes de los jardines no tienen que excavar zanjas profundas con protecciones múltiples: los cables Plug & Shine también pueden estar tendidos sobre la superficie y, con IP 68, cuentan con la máxima protección contra la penetración de agua. El ingenioso sistema de cables se puede ampliar hasta una longitud de 50 m. De esta manera, los amantes del jardín pueden posicionar y ampliar su iluminación con total flexibilidad: basta con conectar y dejar que la luz haga su efecto. Todas las luminarias son regulables, están protegidas contra la corrosión y son resistentes al agua (IP 65/67). Puede conmutar y regular sus luminarias con mando a distancia o control ZigBee 3.0.

Plug & Shine: sistema a innesto per una luce accattivante in giardino e in terrazza

Plug & Shine è la soluzione perfetta per personalizzare l'illuminazione di angoli e piante preferiti in casa, giardino e sul terrazzo.
Il sistema di cavi a tensione continua LED da 24V è semplicissimo da installare e sicuro. Diversamente da quanto avviene per installazioni a 230V, gli amanti dei giardini non devono creare buche profonde e dotate di numerose sicurezze: i cavi Plug & Shine possono essere posati anche sul terreno e grazie alla classe IP 68 sono protetti al massimo contro la penetrazione di acqua. L'intelligente sistema di cavi è ampliabile fino a una lunghezza di 50m. Gli amanti dei giardini potranno così posizionare e ampliare la loro illuminazione nel modo più flessibile: basta collegare e lasciar agire la luce! Tutti gli apparecchi sono dimmerabili, protetti dalla corrosione e impermeabili (IP 65/67). Tramite telecomando o comando ZigBee 3.0, è possibile commutare o dimmerare i propri apparecchi.

- Bright, high-quality exterior luminaires
- Lighting solutions for the garden and terrace, perfectly adapted to your particular application
- Easy connection using the protected Paulmann 24V plug system

Mobile

Mobile: practical battery-powered luminaires to take with you

Perfectly portable! Paulmann Mobile is a unique range of mobile exterior luminaires for pleasant lighting wherever you are.
Simply place the Mobile floor and table luminaires with integrated batteries in the garden or on the patio for effortlessly cosy light! The luminaires are water-protected, most of them are dimmable and can easily be charged with all common charging units using the USB cable (included).
Charge it, pack it, take it with you and impress your friends with atmospheric light wherever you are.

Mobile: las prácticas luminarias con batería para llevar

¡Movilidad total! Paulmann Mobile es un exclusivo surtido de luminarias exteriores móviles para una luz agradable en cualquier lugar.
¡Basta con colocar las luminarias de pie y de sobremesa Mobile con batería integrada en el jardín o la terraza y disfrutar de su luz acogedora! Las luminarias son resistentes al agua, la mayoría de ellas son regulables y se pueden cargar mediante el cable USB suministrado en todos los cargadores habituales.
Cárguelas, envuélvalas, lléveselas y cause una buena impresión esté donde esté con una luz sugerente.

Mobile: le pratiche lampade a batteria da portare con sé

Perfettamente portatili! Paulmann Mobile è un assortimento unico di apparecchi esterni portatili per un'illuminazione piacevole dappertutto.
Basta posizionare le lampade a piantana e da tavolo Mobile, con batteria integrata, in giardino o in terrazza e godersi la luce confortevole! Gli apparecchi sono protetti dall'acqua, perlopiù dimmerabili e comodamente caricabili tramite il cavo USB fornito, con tutti i caricabatterie comuni.
Caricare, confezionare, portare con sé e conferire a ogni ambiente una luce suggestiva.

- First ever portable light system: LED unit with integrated rechargeable battery
- A basic table or floor luminaire is transformed into a floor, pendant or wall luminaire in seconds with the appropriate accessory
- Clip receptacle for various shades opens up a whole world of individual design options
- Primer sistema de iluminación móvil: unidad LED con batería integrada
- Los accesorios permiten convertir una luminaria de sobremesa o de suelo básica en una luminaria de pie, colgante o de pared en un momento
- El alojamiento de clips para diversas pantallas abre posibilidades de configuración individuales
- Il primo sistema di illuminazione mobile: unità LED con batteria integrata
- Sulla base dell'apparecchio da tavolo e da pavimento, con gli accessori è possibile creare in un attimo una piantana, una lampada a sospensione o una lampada a parete
- L'alloggiamento clip per diversi schermi consente personalizzazioni interessanti

House

House 230V - The reliable 230V luminaires for light around the house

The reliable range of ‚House' outdoor luminaires can be connected to the 230V outdoor power supply and covers all areas of application outside the house and along the driveway. Powerful LED panels for canopies and house walls, clever house number luminaires and decorative luminaires for fascinating lighting effects on the facade complete the range. The light colour spectrum ranges from warm white at 2700K and 3000K to 4000K neutral white and daylight white at 6500K. The wall and ceiling luminaires are protected against water with a minimum rating of IP44; the floor luminaires with a minimum rating of IP67. All luminaires in this range are guaranteed for 5 years.

House 230V – Las eficaces luminarias de 230 V para iluminar el entorno de la casa

El fiable surtido de luminarias exteriores House abarca los ámbitos de aplicación alrededor de la casa y los accesos y se puede conectar a través de la alimentación exterior de 230 V. El surtido se completa con potentes paneles LED para la marquesina y la pared de la casa, ingeniosas luces para número de casa y decorativas luminarias que crean efectos lumínicos fascinantes en la fachada. El espectro de tonalidades de la luz se extiende desde Blanco cálido con 2700 K y 3000 K hasta Blanco neutro con 4000 K y Blanco diurno con 6500 K. Los apliques y plafones están protegidos contra el agua con un grado de protección de, al menos, IP44; en las luminarias de suelo se emplea, como mínimo, IP67. En todas las luminarias de este surtido se concede una garantía de 5 años.

House 230 V: le affidabili lampade da 230 V per ottenere luce intorno alla casa

L'affidabile assortimento di luci esterne House avvolge le aree di applicazione attorno alla casa e al collegamento, che possono essere allacciate con un'alimentazione di corrente esterna di 230V. Completano l'assortimento pannelli a LED potenti per veranda e muri, lampade intelligenti per l'illuminazione dei numeri civici e apparecchi decorativi per effetti luminosi affascinanti sulla facciata. La gamma di colori della luce va dal bianco caldo, con 2700K e 3000K, al bianco naturale, con 6500K, passando per il bianco neutro 4000 K. Le applique e le plafoniere sono protette dall'acqua almeno con tipo di protezione IP44; le lampade da pavimento con almeno IP67. Su tutte le lampade di questo assortimento vale una garanzia di 5 anni.

Solar

Solar - Solar-powered outdoor luminaires, no power supply required.

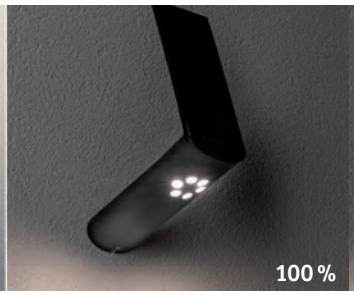
The clever Solar range includes functional lighting for all aspects of the house and access roads. The intelligent combination of the size of the solar module and the lumen output according to demand enables sufficient luminosity for a sufficient amount of time - at any time of the year. The solar luminaires offer functional lighting with a unique design and exciting additional functions such as night light, house number lighting and motion sensors. The luminaires emit a pleasant warm white light at 3000K. A large portion of the range is equipped with replaceable lithium-ion batteries. These luminaires are guaranteed for 5 years.

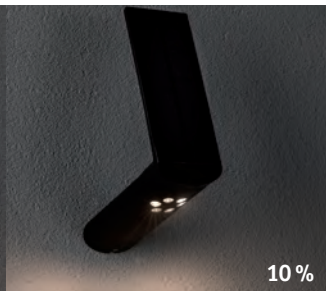
Solar – Luminarias solares para el exterior, independientes de las tomas de corriente.

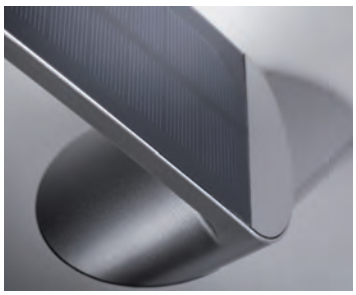
El surtido inteligente Solar abarca iluminación funcional alrededor de la casa y los accesos. La combinación inteligente del tamaño del módulo solar y del flujo luminoso permite conseguir una intensidad y duración de la iluminación suficientes en todas las estaciones del año. Las lámparas solares proporcionan una iluminación funcional con un diseño exclusivo y, en parte, funciones adicionales interesantes, como luz de noche, iluminación del número de casa y sensores de movimiento. Las luminarias irradian una agradable luz blanca cálida de 3000 K. Una gran parte del surtido está equipado con baterías de iones de litio reemplazables. Estas luminarias tienen 5 años de garantía.

Solar: apparecchi a energia solare per esterno, indipendenti dall'allacciamento alla corrente.

L'intelligente gamma Solar include apparecchi funzionali per fare luce attorno alla casa e nel viale d'accesso. La combinazione smart di dimensioni del modulo solare e intenso flusso luminoso garantisce un'adeguata luminosità e durata in ogni stagione dell'anno. Le lampade solari assicurano un'illuminazione funzionale con un design unico nel suo genere e funzioni supplementari suggestive come luce notturna, illuminazione del numero civico e sensori di movimento. Le lampade emettono una luce bianca e calda con 3000K. Una grande parte della gamma di prodotti è dotata di batterie sostituibili agli ioni di litio. Per queste lampade la garanzia è di 5 anni.







- The highlight: a 350°-rotatable solar panel allows perfect alignment for optimal solar energy absorption.
- Incl. lithium-ion battery, dusk sensor, nightlight function and motion sensor.
- Charging time: 8h, working light 150lm: 1.5h, orientation light 10lm: 15h

- Lo mejor: el panel solar se puede girar en 350°, permitiendo la orientación ideal para la absorción óptima de la energía solar.
- Incluye batería de iones de litio, sensor crepuscular, función de luz de noche y detector de movimientos.
- Tiempo de carga: 8 h, luz de trabajo 150 lm: 1,5 h, luz de orientación 10 lm: 15 h

- Il clou: il pannello solare rotante a 350° consente un orientamento ideale per l'assorbimento ottimale dell'energia solare.
- Include batteria agli ioni di litio, sensore crepuscolare, funzione luce notturna e sensore di movimento.
- Tempo di carica: 8h, luce di lavoro 150lm: 1,5h, luce di orientamento 10lm: 15h

- Recessed floor luminaire with orientation light and motion sensor
- Thanks to its IP67 rating, the recessed floor luminaire is waterproof, rustproof and can withstand loads of up to 500 kg - making it suitable for installation in outdoor pedestrian areas.
- Clever additional functions: motion sensor, dusk sensor and orientation light function
- Charging time: 8h, working light 50lm / 160lm: >1h, orientation light 5lm: 12h

- Luminaria empotrable en el suelo con luz de orientación y detector de movimientos
- Gracias al grado de protección IP67, la luminaria empotrable en el suelo es totalmente estanca al agua, inoxidable y apropiada para el montaje empotrado en zonas exteriores transitables, soporta una carga de hasta 500 kg.
- Elementos prácticos con funciones adicionales inteligentes: detector de movimientos, sensor crepuscular y función de luz de orientación
- Tiempo de carga: 8 h, luz de trabajo 50 lm / 160 lm: >1h, luz de orientación 5 lm: 12 h

- FI da pavimento con illuminazione di orientamento e rilevatore di movimento
- Il faretto da incasso a pavimento è garantito come impermeabile grazie al tipo di protezione IP67, oltre a essere anti-ruggine e idoneo per l'incasso in ambienti esterni calpestabili. Caricabile fino a 500kg.
- Un pratico aiutante grazie alle funzioni aggiuntive intelligenti: rilevatore di movimento, sensore crepuscolare e funzione luce di orientamento
- Tempo di carica: 8h, luce di lavoro 50lm / 160lm: >1h, luce di orientamento 5lm: 12h

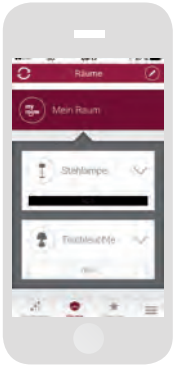
Comando dell'edificio
incl. comando della luce

One app for all functions
Una aplicación para todas las funciones
Una app per tutte le funzioni



Rooms

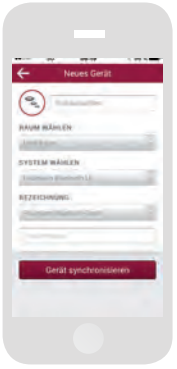
Configure rooms individually and assign your luminaires to the rooms.

Estancias

Cree estancias individualmente y asígneles sus luminarias.

Spazi

Impostate spazi del tutto personalizzati a cui abbinare i vostri apparecchi.



Luminaires, lamps, controllers

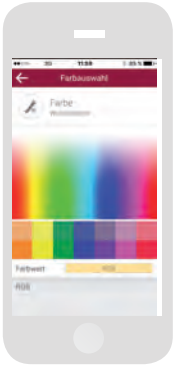
Configure each of your luminaires as you want – with a name and a symbol.

Luminarias, lámparas, controladores

Cree cada una de sus luminarias como desee, con un nombre y un símbolo.

Apparecchi, lampade, controller

Impostate ciascuno dei vostri apparecchi come desiderate, dandogli un nome e un simbolo.



Colour control

Create the perfect mood in each room with RGB+W effect lighting, tunable white or simple dimming.

Control del color

Ya sea con efectos de luz RGB+W, blanco ajustable o simplemente luz regulable, cree el ambiente adecuado para cada estancia.

Comando dei colori

Che sia luce a effetto RGB+W, regolazione del bianco (Tunable White) o semplicemente dimming, immergete il vostro ambiente nell'atmosfera giusta.

Scenarios

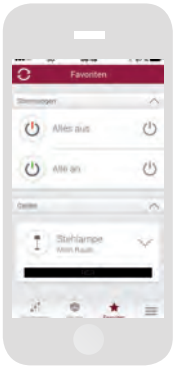
You can save your favourite settings and return everything to exactly how you like it at the press of a button

Escenas

Con su configuración favorita, puede ajustarlo todo según sus preferencias siempre que quiera, con solo un botón.

Scene

Con le vostre regolazioni preferite potete impostare sempre tutto come preferite premendo semplicemente un tasto.



Favourites

You can configure each luminaire as a favourite for extra prompt operation.

Favoritos

Puede marcar cada luminaria como favorita para poder operar con ella rápidamente.

Preferiti

Potete impostare ogni apparecchio come preferito per poterlo comandare velocemente.

Timing

You decide at what time your luminaire automatically turns on or off.

Your smartphone does not need to be present for the light to turn on.

Control de tiempo

Determine a qué hora debe encenderse o apagarse automáticamente su luminaria.

No hace falta que el smartphone se encuentre cerca en el momento del encendido/apagado.

Comando temporale

Stabilite a vostro piacimento a che ora deve accendersi o spegnersi automaticamente il vostro apparecchio.

Al momento dell'accensione lo smartphone non deve trovarsi necessariamente nelle vicinanze.

Smart® Friends

ABUS Security Tech Germany · Paulmann · SCHELLENBERG · STEINEL Intelligent technology

Smart Friends-compatible

With Smart Friends you can benefit from a future-proof, expandable system with four compatible German quality manufacturers:

- Security technology and outdoor WLAN camera by ABUS
- Zigbee indoor luminaires by Paulmann
- Drive technology for roller shutters and garage doors or
  Heating thermostats by Schellenberg
- Sensor technology and luminaires by STEINEL

You can use all products individually, you can link them up with each other and also automate operations. All of the products are controlled using the Smart Friends app on your smartphone or tablet PC.

Compatible con Smart Friends

Benefíciese con Smart Friends de un sistema ampliable preparado para el futuro de cuatro fabricantes de calidad alemanes compatibles entre ellos:

- Tecnología de seguridad y cámara exterior WLAN de ABUS
- Luminarias interiores ZigBee de Paulmann
- Técnica de accionamiento para persianas y puertas de garaje o
  Termostatos de calefacción de Schellenberg
- Tecnología de sensores y luminarias de STEINEL

Puede utilizar todos los productos individualmente o enlazarlos y, además, es posible automatizar acciones. El control de todos los productos se realiza a través de la aplicación Smart Friends en el smartphone o la tableta.

Compatibilità con Smart Friends

Con Smart Friends approfittate di un sistema, ampliabile e proteso verso il futuro, di quattro produttori tedeschi di elevata qualità compatibili fra loro:

- Tecnica di sicurezza e telecamera esterna WLAN di ABUS
- Apparecchi per interni ZigBee di Paulmann
- Tecnica motoristica per tapparelle e porte garage o
  Termostati degli impianti di riscaldamento di Schellenberg
- Tecnica sensoristica e apparecchi di STEINEL

È possibile utilizzare tutti i prodotti singolarmente, collegarli fra loro e automatizzarne le attività. Il comando di tutti i prodotti ha luogo tramite la app Smart Friends su smartphone o tablet.

VDE Profi Transformer 230/12V

- Can be used at an ambient temperature of up to 50°
- Suitable for a low minimum load of 10 W
- Can be dimmed with all dimmers (phases cut on/off)
- Utilizable hasta 50° de temperatura ambiente
- Apto para baja carga mínima de 10 W
- Regulable con todos los reguladores (de corte o inversión de fases)
- Per temperature ambiente fino a 50°
- Adatto per carico minimo ridotto 10 W
- Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

VDE Flat Transformer 230/12V

- Flat transformers have an installation height of only 24 mm
- Problem solver for slightly suspended ceilings
- Ideal for mirror and gallery lighting and in furniture
- Can be dimmed with all dimmers (phases cut on/off)

- Los flat-trafos sobresalen sólo 24 mm
- Exentos de problemas incluso en techos de baja altura
- Ideal para luces de espejos, galerías y muebles
- Regulable con todos los reguladores (de corte o inversión de fases)

- I trasformatori Flat hanno un'altezza di soli 24 mm
- Soluzione ai problemi di spazi ridotti nei controsoffitti
- Ideale per specchi, quadri e integrazione nei mobili
- Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

VDE Profi Transformer 230/12V

- Doubled primary connection for several transformers in a single switch
- Several secondary terminal pairs
- Max. 50 ° ambient temperature
- Suitable for NYM cable
- Captive strain relief and cap
- Middle outlet
- Can be dimmed with all dimmers (phases cut on/off)

- Doble conexión de primario para varios transformadores en un circuito
- Varios pares de bornes de secundario
- Hasta 50 ° de temperatura ambiente
- Aptos para cable NYM
- Capuchón y dispositivo antiaflojamiento imperdible
- Salida central
- Regulable con todos los reguladores (de corte o inversión de fases)

- Doppia connessione primaria per più trasformatori in un circuito
- Più coppie di morsetti per secondario
- Per temperature ambiente fino a 50 °
- Adatto per cavi NYM
- Scarico della trazione e coperchio imperdibili
- Uscita centrale
- Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

Gold Oro Oro

Inner Glow

New: Inner Glow – Completely glare-free gold glass lamps with inner light bulb add extra warm lighting accents to any living room. Available in three designs with two different laser-engraved patterns.

Inner Glow

Novedad: Inner Glow – las lámparas totalmente antideslumbrantes de vidrio dorado con ampolla interior crean tonos luminosos especialmente cálidos en cada estancia. Disponibles en tres formas con dos diferentes dibujos grabados al láser.

Inner Glow

Novità: Inner Glow – Lampadine in vetro a fondo d'oro con ampolle interne, creano accenti luminosi caldi in ogni ambiente. Disponibili in tre forme costruttive, con due diversi pattern di incisione laser.

Security

Diffuses 80 % of the heat to the front (special coating). Ideal for recessed lighting (no hazard for insulating material)

Security

Disipa el 80% del calor por delante (recubrimiento de superficie especial). Ideal para lámparas empotrables (sin riesgo para el material aislante)

Security

Devia l'80% del calore verso la parte anteriore (rivestimento speciale). Ideale per le luci a incasso (non danneggia i materiali isolanti)

Basic + Deco =

1) Compared to a conventional bulb
Frente a lámparas incandescentes normales
Rispetto a una lampadina a incandescenza tradizionale

Decorated halogen lamps from Paulmann – all shapes, many colours

- Popular decorated shapes and colours for divers luminaire styles
- Opal matt surfaces
- For sockets with E14, E27, B22d or B15d sockets
- Brilliant light, efficient technology: Energy consumption reduced by up to 25 % [1)]
- Do your own combinations: glass + socket = decorated lamp

Lámparas halógenas decoradas de Paulmann – todas las formas y muchos colores

- Variadas formas decorativas y colores para diversos estilos de lámpara
- Superficies en opal mate
- Para portalámparas con casquillo E14, E27, B22d o B15d
- Luz brillante, técnica eficiente: Hasta un 25 % de menor consumo energético [1)]
- Haga sus propias combinaciones: vidrio + portalámparas = lámpara decorativa

Lampadine alogene decorate Paulmann - tutte le forme e tanti colori

- Forme decorate e colori apprezzati per diversi stili di luci
- Superfici opali opache
- Per basi con portalampade E14, E27, B22d o B15d
- Luce brillante, tecnologia efficiente: Fino a 25 % di consumo energetico in meno [1)]
- Scegliete da soli le combinazioni - Vetro + base = Lampade decorate

Lumen comparison
Comparativa de lúmenes
Comparazione luminosità

Paulmann LED lamps consume at least 80% less power than conventional incandescent light bulbs.

They meet the requirements of efficiency classes A, A+ or A++.

For example, the LED lamp 282.98 with efficiency class A+ can replace a 60 W incandescent light bulb. For the same brightness, however, it consumes only 9.5 watts.

Las lámparas LED de Paulmann ahorran al menos un 80 % del consumo de energía de una lámpara incandescente convencional.

Cumplen los requisitos del grado de eficiencia A, A+ o A++.

Por ejemplo, la lámpara LED 282.98 con el grado de eficiencia A+ sustituye a una lámpara incandescente de 60 W. Suministra la misma luminosidad, pero con un consumo de tan solo 9,5 vatios.

Le lampadine LED Paulmann consentono di risparmiare almeno l'80% della potenza assorbita di una normale lampadina a incandescenza.

Soddisfano i requisiti della classe di efficienza A, A+ o A++.

Ad esempio la lampa a LED 282.98 con una classe di efficienza A+ sostituisce una lampadina a incandescenza da 60 W. Con la stessa luminosità consuma soltanto 9,5 Watt.

LED instead of halogen – replacing high-voltage lamps (230 V):
LED en lugar de halógeno – sustitución en lámparas de alto voltaje (230 V):
LED al posto delle alogene - sostituzione della lampadine ad alto voltaggio (230V):

1. Select the desired design.
2. Find your socket type.
3. Should the lamp be dimmable?
4. Select the desired brightness (watts/lumen). Please pay attention to the minimum transformer load.
5. Which luminous colour should the lamp have?

1. ¡Seleccione el diseño que desee!
2. ¡Busque su casquillo!
3. ¿La lámpara debe ser regulable?
4. Seleccione la claridad deseada (vatios/lumen). Tenga en cuenta la carga mínima en transformadores.
5. ¿Qué color de luz debe tener su lámpara?

1. Selezionate la forma desiderata!
2. Individuate l'attacco giusto!
3. La luce deve essere regolabile?
4. Selezionate la luminosità desiderata (watt/lumen). Considerate il carico minimo dei trasformatori.
5. Quale deve essere il colore della luce della lampadina?

LED instead of halogen – replacing low-voltage lamps (12V):
LED en lugar de halógeno – sustitución en lámparas de bajo voltaje (12 V):
LED al posto delle alogene - sostituzione della lampadine a basso voltaggio (12V):

1 **Which transformer does my system have?**

¿Qué transformador tiene mi sistema?

Qual è il trasformatore del mio sistema?

2 **Will LED and halogen lights be used mixed together?**

¿Pueden emplearse lámparas LED y halógenas mezcladas?

Devono essere utilizzate lampadine LED e alogene combinate?

3 **Determine the capacity range (VA) of the transformer and exchange the lamps.**

Averigüe el rango de utilización (VA) del transformador y cambie las lámparas.

Definire il range di carico (VA) del trasformatore e sostituire le lampadine.

Conventional
(large and heavy)
convencional
(grande y pesado)
convenzionale
(grande e pesante)

yes
sí
sì

no
no
no

70–80 % capacity
e.g. around 80 VA for 105 VA transformer rating

70-80% utilización
p.ej. 105 VA debería estar equipado con aprox. 80 VA de consumo total de energía

Carico del 70-80%
con un valore di 105 VA, ad esempio, l'assorbimento di potenza deve essere di circa 80 VA

Example Ejemplo Esempio
2×35 W Halogen +
3×5 W LED = 85 W

Load is insignificant
e.g. 105 VA transformer rating

La tasa de utilización es insignificante
p.ej. 105 VA de potencia de transformador

Il carico è irrilevante
ad esempio trasformatore con potenza 105 VA

Example Ejemplo Esempio
1x5 W LED
or o o
21x5 W LED = 105 W

Electronic

Capacity: transformer specifications ,e.g. at 105 VA transformer capacity: approx. 35-105 VA

Utilización: datos transformador p. ej. a 105 VA de potencia de transformador: aprox. 35-105 VA

Carico: Indicazione trasformatore ad esempio circa 35–105 VA con una potenza del trasformatore di 105 VA

Example Ejemplo Esempio
2x35 W Halogen +
3x5 W LED = 85 W

Capacity: min. transformer specifications, max. 60% e. g. at 105 VA transformer capacity: min. 35 – max. 63 VA

Utilización: datos mín. transformador, máx. 60% p. ej. a 105 VA de potencia de transformador: mín. 35 - máx. 63 VA

Carico: Min. Indicazione trasformatore, max. 60% ad esempio circa min. 35 – max. 63 VA con una potenza del trasformatore di 105 VA

Example Ejemplo Esempio
12x5 W LED = 60 W

The value of 1 VA (Volt-ampere) in the transformer rating corresponds to the value of 1 W (watt) in the rated power consumption of the lamps.
El valor de 1 VA (voltamperios) en la norma de potencia de transformadores corresponde a 1W (vatio) de consumo de energía de las lámparas.
Il valore di 1 VA (voltampere) nell'indicazione della potenza del trasformatore corrisponde a 1 W (watt) di potenza assorbita delle lampadine.

Transformer for LED: the universal solution
Transformador para LED: la solución universal
Trasformatore per LED: la soluzione universale

If the new LED lamps do not meet the minimum transformer load, we recommend a new electronic transformer which consumes power of 0-40 watts (with LED). Item no. 977.67

Si los nuevos LED no alcanzan la carga mínima del transformador, le recomendamos un nuevo transformador eléctrico, que acepte potencia de 0-40 vatios (con LED) Art. n° 977.67

Se le nuove lampadine LED non raggiungono il carico minimo del trasformatore, si consiglia l'utilizzo di un nuovo trasformatore elettronico che assorbe la potenza di 0-40 watt (con i LED). Codice: 977.67

Dimmer identification
Identificación del regulador
Marcatura dimmer

When installing a luminaire you have to find the right dimmer for the right lamp.

The letters (**R**, **L**, **C**, **LED**...) or combinations of those letters indicate the types of dimmers, transformers and lamps.

When choosing a dimmer, the letters on the dimmer must correspond to those on the transformer or the lamp.

- LED products require an LED dimmer which can be either a LEADING-edge

  or a TRAILING-edge

  dimmer.
  (Letters **LED**, HV-**LED**, **LED**i)

- 12 V halogen lamps with an electronic transformer normally require a TRAILING-edge dimmer

  (**R**, **C**)

- 12V halogen bulbs with a conventional transformer require a LEADING-edge dimmer.

  (**R**, **L**)

- Any dimmer can be used with 230 V incandescent and halogen bulbs.

  (**R** / **R, L** / **R, C** / **R, L, C**)

Luminaires that are supplied without lamps and, where applicable, without ballast are marked "max. 40W", for example. If these luminaires are dimmable, they are marked with

However, dimmability depends on the type of lamp used and, where applicable, the ballast. More detailed information can be found here: www.paulmann.com/productdata

En la instalación se debe combinar el regulador correcto con la lámpara/luminaria correcta.

Los distintivos (**R**, **L**, **C**, **LED**...) o sus combinaciones definen los reguladores, los transformadores y las lámparas.

Para elegir el regulador correcto, los respectivos distintivos del regulador, el transformador o la lámpara deberán coincidir.

- Para los productos LED, necesita un regulador LED de corte de inicio de fase

  o bien de corte de final de fase

  (distintivos **LED**, HV-**LED**, **LED**i)

- Para lámparas halógenas de 12 V con transformador electrónico, normalmente un regulador de corte de final de fase

  (**R**, **C**)

- Para lámparas halógenas de 12 V con transformador convencional, un regulador de corte de inicio de fase.

  (**R**, **L**)

- Las lámparas incandescentes y las lámparas halógenas de 230 V pueden regularse con cualquier regulador.

  (**R** / **R, L** / **R, C** / **R, L, C**)

Las luminarias que se suministran sin lámpara y, en su caso, sin balasto, están identificadas p. ej. con «máx. 40 W». En caso de que estas luminarias sean regulables, están identificadas con

Sin embargo, la regulación depende del tipo de lámpara empleada y, en su caso, del balasto. Puede encontrar más información aquí: www.paulmann.com/productdata

In un'installazione, il dimmer deve essere adatto alla lampadina / luce.

I codici (**R**, **L**, **C**, **LED**...) o le relative combinazioni definiscono dimmer, trasformatori e lampade.

Per la scelta del dimmer più adatto, i codici presenti sul dimmer, sul trasformatore o sulla lampada devono coincidere.

- Per le lampade a LED è necessario un dimmer LED ad anticipo di fase

  o a ritardo di fase

  (Codice **LED**, HV-**LED**, **LED**i)

- Normalmente con le lampadine Halogen 12V con trasformatore elettronico viene impiegato un dimmer a ritardo di fase

  (**R**, **C**)

- Per le lampadine Halogen 12V con trasformatore tradizionale, un dimmer ad anticipo di fase.

  (**R**, **L**)

- Le lampadine a incandescenza e le lampade alogene 230V possono essere dimmerate con qualsiasi dimmer.

  (**R** / **R, L** / **R, C** / **R, L, C**)

Gli apparecchi forniti senza lampadina ed eventualmente senza alimentatore sono dichiarati con ad es. "max. 40W". Se sono dimmerabili, sono dichiarati con

La regolazione dell'intensità dipende tuttavia dal tipo di lampadina utilizzata ed eventualmente dall'alimentatore. Qui trovate ulteriori informazioni: www.paulmann.com/productdata

Cable cross-sections 12 V
Secciones transversales del conductor 12 V
Sezioni dei cav 12 V

Determination of the cable cross-section
Determinación de la sección transversal del conductor
Determinazione della sezione del cavo

Light output Potencia de lámpara Potenza della lampada	Cable length Longitud del conductor Lunghezza del cavo				
	2,5 m	5,0 m	7,5 m	10,0 m	15 m
	Cable cross-section mm² Sección transversal del conductor mm² Sezione del cavo in mm²				
20 W	0,75	0,75	1,5	1,5	2,5
50 W	1	2,5	4	4	6
100 W	2,5	4	6		
150 W	4	6			
200 W	4				
250 W	6				
300 W	6				

Only for feed cables to distributions – not for wire systems.
Calculated for a 3 % voltage drop. Maximum cable length in the case of electronic transformers: 2 m.

Sólo para cables de entrada para distribuidores y no para sistemas de cables.
Calculado para una caída de tensión de un 3 %. Longitud máxima de conductor de 2 m para transformadores electrónicos.

Solo per cavi di distribuzione, non per sistemi a fune.
Calcolo eseguito per una caduta di tensione del 3 %. Per i trasformatori elettronici: lunghezza massima del cavo 2 m.

Recommended cable cross-sections for 12 V wire systems
Secciones transversales del conductor recomendadas para sistemas de cables de 12V
Sezioni raccomandate per i cavi di sistemi a fune a 12 V

Light output Potencia de lámpara Potenza della lampada	Wire length Longitud de cable Lunghezza della fune	
	< 5 m	> 5 – 15 m
	Cable cross-section in mm² Sección transversal del conductor mm² Sezione del cavo in mm²	
< 150 W	2,5	–
> 150 – 300 W	–	4

Wire systems may not have an output exceeding 300 W!
In the event of a higher output requirement, use circiut-cutters, thus forming two electric circuits! The appearance of the wire will be unaffected.

Los sistemas de cables deben tener una potencia inferior a 300 W!
Si se requiere más potencia, utilice un seccionador y cree así dos circuitos! Esto no repercute en la óptica del cable.

La potenza dei sistemi a fune non può superare i 300 W!
Se è necessaria una potenza superiore, utilizzare appositi sezionatori per formare due circuiti elettrici! L'effetto estetico della fune resta inalterato.

Transformer load
Carga del transformador
Carico massimo del trasformatore

IP... Safety classification IP 23 only applies to ceiling fittings.
La clase de protección IP sólo es válida en las instalaciones en el techo.
Il grado di protezione IP è valido solo per il montaggio a soffitto.

D Rooms with electrical systems acc. to DIN VDE 0100 T.701 (areas valid for ceilings up to 2.25 m)

Only luminaires that are covered by a permanently attached glass plate may be installed in the ceiling or where the operation is low voltage protector.

The safety power source has to be outside the marked areas and there needs to be protection against direct contact of live parts. Cable and lines up to 5 cm deep in wall: only vertical layout and cable inlet in the back side of the luminaire.

Countries outside Germany: The dimensions, which must be adhered to exactly, as well as the evaluation of the areas must be conducted by a local electrician in accordance with national installation regulations.

D Interiores con equipos eléctricos según DIN VDE 0100 T.701 (margen válido de hasta 2,25 m de altura)

En el techo podrán empotrarse únicamente lámparas que estén cubiertas por una luna fija o que funcionen con baja tensión de protección.

La fuente de corriente de seguridad deberá hallarse fuera de la zona marcada y estar protegida contra el contacto directo de componentes conductores de tensión. Cables y conducciones hasta 5 cm bajo el enlucido: solamente tendido en verical e introducción de cable en la cara trasera de la lámpara.

Países fuera de Alemania: Las medidas exactas que hay que observar, así como la evaluación de las zonas deberá efectuarse en conformidad con las normativas de instalación nacionales y por un electricista local.

D Locali con impianti elettrici a norma DIN VDE 0100 T.701 (zone con un'altezza massima di 2,25 m)

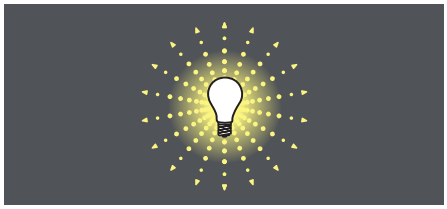
Gli apparecchi d'illuminazione possono essere incassati nel soffitto solo se sono coperti da una lastra di vetro fissa, oppure se sono alimentati con bassissima tensione.

La fonte della corrente di sicurezza deve essere disposta al di fuori delle zone contrassegnate e deve essere presente una protezione che impedisca il contatto diretto con i componenti attraversati dalla corrente. Cavi e conduttori fino a 5 cm sotto l'intonaco: solo posa verticale e inserimento del cavo nel lato posteriore dell'apparecchio d'illuminazione.

Paesi diversi dalla Germania: Le misure esatte da rispettare come anche la valutazione degli ambienti devono essere eseguite da un elettricista del luogo in conformità alle norme nazionali di installazione.

How bright is the lamp?
¿Cómo de luminosa es la lámpara?
Quanto è luminosa la lampadina?

Brightness with omnidirectional spotlights
Luminosidad de proyectores omnidireccionales
Luminosità con luci omnidirezionali

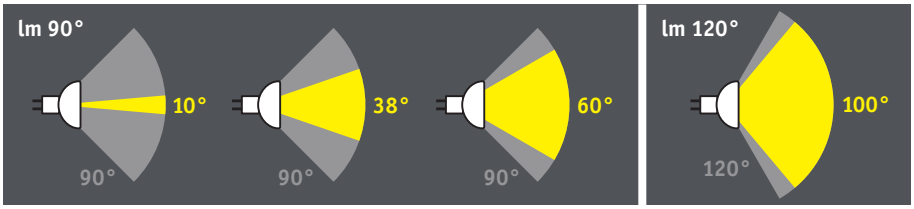


The unit of measurement lumen (lm) is specifies with luminous flux the total amount of light that an omnidirectional lamp emits.

La unidad lumen (lm) de flujo luminoso indica la cantidad total de luz que emite una lámpara que irradie en todas direcciones.

L'unità di misura lumen (lm) e il flusso luminoso indicano la quantità complessiva di luce emanata da una lampadina.

Brightness with reflector lamps
Luminosidad de lámparas reflectoras
Luminosità con riflettori



All reflector lamps with a beam angle of up to 90° are prescribed with luminous flux in a 90° angle and can therefore be compared. The brightness is measured outside of the 90° angle even though the actual beam angle is lesser.

All reflector lamps with a beam angle of 91° to up to 120° are prescribed with luminous flux in a 120° angle. These bulbs are not suitable for accent lighting.

All bulbs with at beam angle greater than 120° are considered „non-directional light" are prescribed with the luminous flux value (lumen, lm) that is determined in the complete 360° around the bulb.

The various units of measurement lumen (lm), lumen in the 90° angle (lm90°) and lumen in the 120° angle (lm120°) cannot be compared with each other.

Para posibilitar su comparación, en todas las lámparas reflectoras con un ángulo de irradiación de hasta 90° se indica el flujo luminoso en un ángulo de 90°. Se mide la luminosidad dentro del ángulo de 90°, aunque el ángulo de irradiación real sea menor.

En todas las lámparas reflectoras con un ángulo de irradiación de 91° hasta 120° se indica el flujo luminoso en un ángulo de 120°. Este tipo de luminaria no es adecuado para una iluminación de acentuación.

Todas las luminarias con un ángulo de irradiación mayor de 120° se consideran como „luz no dirigida" y en ellas se indica el valor del flujo luminoso (lumen, lm) irradiado en todas direcciones (360°) alrededor de la luminaria.

Las diversas unidades de medida, lumen (lm), lumen en un ángulo de 90° (lm90°) y lumen en un ángulo de 120° (lm120°), no son comparables entre sí.

Tutti i riflettori con un angolo di irradiazione fino a max. 90° vengono contrassegnati con flusso luminoso a 90° e sono quindi comparabili tra loro. La luminosità viene misurata all'interno dell'angolo di 90°, anche se l'angolo di irradiazione effettivo è minore.

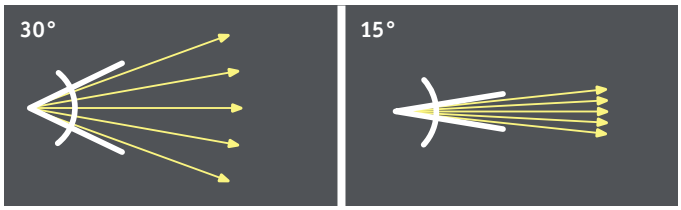
Tutti i riflettori con un angolo di irradiazione compreso tra 91° e max. 120° vengono contrassegnati con il valore di flusso luminoso a 120°. I corpi luminosi di questo tipo non sono adatti per l'illuminazione di accento.

Tutti i corpi luminosi con un angolo di irradiazione superiore a 120° sono considerati „luci non mirate" e vengono contrassegnati con il valore di flusso luminoso (lumen, lm) calcolato su tutti i 360° intorno al corpo luminoso.

Le diverse unità di misura lumen (lm), lumen a 90° (lm90°) e lumen a 120° (lm120°) non sono comparabili tra loro.

Desired luminous colour?
¿Qué color de luz se desea?
Quale colore della luce desidera?

Candela



Broader beam angle, less light intensity

Mayor ángulo de irradiación, menor intensidad lumínica

Ampio angolo di irradiazione, intensità luminosa più ridotta

Narrower beam angle, greater light intensity

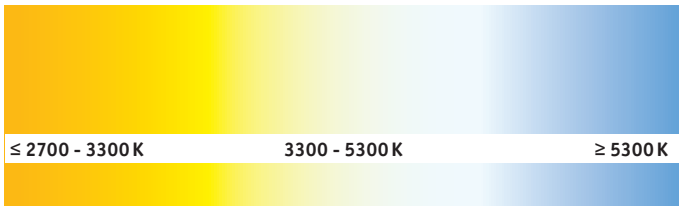
Menor ángulo de irradiación, mayor intensidad lumínica

Angolo di irradiazione più ridotto, elevata intensità luminosa

The unit of measurement candela (cd) specifies the light intensity of focused light as emitted by reflector lamps. Reflector lamps focus the luminous flux in a certain beam angle (specification in degrees). The narrower the angle, the greater is the focussing and the higher the candela value.

La unidad candela (cd) indica la intensidad luminosa de un haz de luz, como el generado por lámparas reflectoras. Las lámparas reflectoras concentran e intensifican el flujo luminoso en un ángulo determinado de irradiación (especificación en grados).
Cuanto menor sea el ángulo, más intensa será la concentración y mayor el valor en candelas.

L'unità di misura candela (cd) indica l'intensità luminosa della luce in fasci, come ad esempio quella dei riflettori. I riflettori emettono la luce in fasci e rafforzano il flusso luminoso a un determinato angolo di irradiazione (indicato in gradi).
Più ristretto sarà l'angolo, più potenti i fasci di luce e più elevato il valore candela.



Warm white
Blanco cálido
Bianco caldo

Neutral white
Blanco neutro
Bianco neutro

Daylight white
Blanco de luz del día
Buce diurna

The colour temperature is specified by the unit Kelvin (K) and describes whether the white light is either a more warm yellow or a cold blue. Warm white light is like the afternoon daylight; is has a comforting and relaxing effect. Neutral white light is invigorating; daylight white encourages concentration.

La temperatura de color se especifica en Kelvin (K) y describe si la luz blanca es más bien de un amarillento cálido o de un azulado frío. La luz blanca cálida se asemeja a la luz del atardecer y produce un efecto confortable y relajante. La luz blanca neutral produce un efecto estimulante, la luz blanca diurna potencia la concentración.

La temperatura di colore viene espressa in Kelvin (K) e indica se la luce bianca tende più alle tinte calde del giallo o a quelle fredde del blu. La luce bianca calda ricorda la luce naturale sul finire della giornata, ricreando un'atmosfera piacevole e rilassante. La luce bianca neutra ha un effetto energizzante, mentre quella bianca naturale aiuta la concentrazione.

5 Jahre Years Ans Jaar Años Annos Garantie*	**Warranty conditions of Paulmann Licht GmbH** Paulmann Licht GmbH guarantees non-commercial customers that products marked with a corresponding warranty mark will function flawlessly for a period of 5 years from the date of purchase. Our full warranty terms and conditions can be found on our website: www.paulmann.com/guarantee	**Condiciones de garantía Paulmann Licht GmbH** Paulmann Licht GmbH garantiza a los clientes no comerciales el perfecto funcionamiento de los productos marcados con un indicador de garantía correspondiente durante un período de tiempo de 5 años a partir de la fecha de la compra. Puede encontrar nuestras condiciones de garantía íntegras en nuestro sitio web: www.paulmann.com/guarantee	**Condizioni di garanzia Paulmann Licht GmbH** Paulmann Licht GmbH garantisce ai clienti non commerciali il perfetto funzionamento dei prodotti con marchio di garanzia per un periodo di 5 anni a partire dalla data d'acquisto. Le nostre condizioni di garanzia complete sono disponibili sul nostro sito web: www.paulmann.com/guarantee
VDE TÜV Geprüft	Safety test marks issued by the Association of German Electrical Technicians (VDE) and the German Technical Monitoring Associations (TÜV). Paulmann is synonymous with optimum safety and quality. All our products comply with the European standards laid down. Even when safety tests are not mandatory, Paulmann products are tested by the VDE, TÜV or the Paulmann Quality Assurance department. These are marked accordingly in the product.	Símbolo de control de seguridad de VDE y TÜV. Paulmann equivale a seguridad y calidad. Todos nuestros artículos están fabricados según las normas europeas fijadas. Los productos de Paulmann se someten a inspección por el VDE, TÜV o control de calidad de Paulmann, incluso cuando no está estipulada. Los artículos están marcados de forma correspondiente en el catálogo.	Marchi di sicurezza del Verband Deutscher Elektrotechniker (associazione dei tecnici elettricisti tedeschi) e delle associazioni di controllo tecnico. Paulmann è sinonimo di qualità e massima sicurezza. Tutti i nostri articoli sono conformi alle vigenti normative europee. I prodotti Paulmann sono testati dal VDE, dal TÜV o dalla nostra unità interna di assicurazione qualità, anche nei casi in cui non è prescritto un collaudo di sicurezza obbligatorio. I test effettuati sono specificati nel catalogo.
150 VA	The VDE mark behind the transformer specification (e.g. C. 105 VA) refers only to the transformer, and not to the product. All illustrations and specifications regarding measurements, colours and the like may be subject to technical production margins of tolerance, and are not binding. We reserve the right to makes changes to products at any time. We work on the basis of our Terms of Supply and Payment. We will be happy to supply these terms on request, or they can be viewed at www.paulmann.com.	El símbolo VDE detrás del transformador (p. ej. 105 VA) sólo se refiere al transformador y no al producto. Todas las ilustraciones y datos de dimensiones, color, etc. dependen de posibles tolerancias técnicas y de producción y no son vinculantes. Nos reservamos el derecho a modificaciones en los productos. Todo pedido implica la aceptación de nuestras condiciones de pago y suministro. Nos las puede solicitar o ver en www.paulmann.com	Il marchio VDE che segue l'indicazione del trasformatore (p. es. B. 105 VA) si riferisce esclusivamente al trasformatore, non al prodotto. Le illustrazioni e i dati possono presentare lievi differenze tecniche rispetto ai prodotti (dimensioni, colori, ecc.) e non sono vincolanti. Ci riserviamo di apportare modifiche ai prodotti in qualsiasi momento. La nostra attività si basa sulle nostre condizioni generali di fornitura e pagamento, che sono disponibili su richiesta oppure nel sito Internet www.paulmann.com.
832.xx	We recommend buying the replacement bulbs specified for the products in question.	Recomendamos la compra de todos los medios de iluminación indicados junto a los productos.	Raccomandiamo l'acquisto dei corpi illuminanti indicati per ciascun prodotto.
Handmade	Our products made of natural materials and handmade glass are unique; they are subject to natural fluctuations in colour and structure.	Nuestros productos de materiales naturales y cristales hechos a mano son únicos, están sujetos a variaciones naturales de color y estructura.	I nostri prodotti in materiali naturali e vetri realizzati a mano sono unici e naturalmente sono soggetti a variazioni di colore e struttura.
	Colour	Color	Colore
	Material	Material	Materiale
	Safety classification 2	Clase de protección 2	Grado di protezione 2
	Safety classification 3	Clase de protección 3	Grado di protezione 3
COOL BEAM	Dichroic mirror	Reflector dicroico	Specchio per luce fredda
	Low pressure	Baja presión	Bassa pressione
	Product with a limited surface temperature	Producto con temperatura limitada en la superficie	Prodotto con temperatura superficiale limitata
	The bulb is only suitable for fitting to non-flammable materials.	La luminaria sólo debe instalarse en materiales no inflamables.	L'apparecchio d'illuminazione è idoneo al solo montaggio su materiali non infiammabili.
IP... IP...	IP safety classifications See page 481 for further details	Clases de protección IP Para más información, véase pág. 481	Gradi di protezione IP Per le spiegazioni vedi pagina 481

Rust-proof	Inoxidable	Antiruggine
2 brightness levels	2 niveles de claridad	2 livelli di luminosità
Dusk sensor	Sensor crepuscular	Sensore crepuscolare
RGB Multicolor colour change	RGB multicolor cambio de color	Cambio di colore RGB Multicolor
LED colours red, green or blue	Color de LED rojo, verde o azul	LED colorato rosso, verde o blu
Adjustable colours	Colores configurables	Colori impostabili
Flashing	Intermitente	Lampeggiante
Freeze function	Función Freeze	Funzione freeze
Flashlight function	Función Flashlight	Funzione Flashlight
Sound sensor	Sensor de sonido	Sensore di suono
With switch	Con interruptor	Con interruttore
With cable switch incl. plug	Con interruptor de cable, enchufe incl.	Completo di interruttore a cavo incl. connettore
With touch dimmer	Con reguladores de luz táctiles	Con dimmer a sfioramento
With dimmer	Con reguladores de luz	Con dimmer
dimming	regulable	regolabile
Bayonet coupling	cierre bayoneta	Attacco a baionetta
With plug-in transformer	Con transformador de enchufe	Con trasformatore a spina
Plug including earthing contact (Germany)	Enchufe con contacto de puesta a tierra (Alemania)	Connettore Schuko (Germania)
With plug connector	Con conector	Con connettore a spina
With remote control	Con mando a distancia	Con telecomando
Motion detector with high frequency sensor	sensor de movimiento con sensor de alta frecuencia	Sensore di movimento ad alta frequenza
Motion detector	sensor de movimiento	Sensore di movimento
Motion detector with proximity sensor	sensor de movimiento con sensor de proximidad	Sensore di movimento con sensore di prossimità
Battery, rechargeable battery, battery and rechargeable battery operation possible	Es posible su uso con pilas, con batería o con pila y batería	Sono possibili i funzionamenti a batteria, accumulatore e batteria + accumulatore
Battery/rechargeable battery included	Pila / batería incluida	Batteria/accumulatore in dotazione
Wall, floor and/or ceiling fitting	Montaje a pared, suelo y/o techo	Montaggio a parete, pavimento e/o soffitto
Maximum load	Carga máx.	Carico max.
Wire/rod distance	Distancia de cable/barra	Distanza fune/asta
Base	Casquill	Zoccolo
lm	Lumen, luminous flux See page 477, 482 for further details	lumen, flujo luminoso Para más información, véase pág. 477, 482	Lumen, flusso luminoso Per le spiegazioni vedi pagina 477, 482
$lm_{/90°}$ $lm_{/120°}$	Brightness with reflector lamps See page 482 for further details	Luminosidad de lámparas reflectoras Para más información, véase pág. 481	Luminosità con riflettori Per le spiegazioni vedi pagina 482
K	Kelvin, colour temperature See page 483 for further details	kelvin, temperatura de color Para más información, véase pág. 483	Kelvin, temperatura di colore Per le spiegazioni vedi pagina 483
cd	Candela (Lux) value at 1 m See page 483 for further details	Valor Candela (Lux) en 1 m Para más información, véase pág. 483	Valore Candela (Lux) su 1 m Per le spiegazioni vedi pagina 483
S	Dummy output See page 480 for further details	Potencia aparente Para más información, véase pág. 480	Potenza apparente Per le spiegazioni vedi pagina 480
Easy Snap	Easily fitted	Montaje simple	Facile montaggio

Only for indoor use	uso sólo en interiores	Solo per interni
Toroid transformer	Transformador toroidal	Trasformatore a nucleo toroidale
Can be dimmed using leading edge dimmer. See page 479 for further details	Regulable con un reductor de corte de inicio de fase. Para más explicación véase la página 479	Variazione dell'intensità luminosa con dimmer di fase nella sezione di accensione. Per le spiegazioni vedi pagina 479
Can be dimmed using trailing edge dimmer. See page 479 for further details	Regulable con un reductor de corte de fin de fase. Para más explicación véase la página 479	Variazione dell'intensità luminosa con dimmer di fase nella sezione di spegnimento. Per le spiegazioni vedi pagina 479
Integrated spark protection	Protección contra interferencias integrada	Protezione radio integrata
Integrated soft start	Softstart integrado	Avvio "soft" integrato
Integrated short circuit protection	Protección contra cortocircuitos integrada	Protezione da corto circuito integrata
Increased spike protection	Mayor protección contra perturbaciones	Maggiore protezione "anti-spike"
Integrated fire protection	Protección contra incendios integrada	Protezione antincendio integrata
Integrated overload protection	Protección contra sobrecarga integrada	Protezione da sovraccarico integrata
Integrated re-startable temperature monitor	Sensor de temperatura reconectable integrado	riattivabile integrato
Integrated temperature monitor and electronic fuse	Sensor de temperatura integrado y fusible electrónico	Termostato integrato e fusibile elettronico
Integrated electronic fuse	Fusible electrónico integrado	Fusibile elettronico integrato
Integrated fine-wire fuse	Fusible para baja intensidad integrado	Fusibile per correnti deboli integrato
Self-service pack	Embalaje SB	Imballaggio "SB"
Packaging unit	Unidad de embalaje	Unità d'imballaggio
Energy-efficiency class	clase de ahorro energético	Classe di efficienza energetica
Cycles of operation	Ciclos de conmutación	Cicli di commutazione
Lower power consumption, the same brightness	Menor consumo de corriente, igual luminosidad	Meno consumo elettrico, luminosità invariata
Flicker-free quick start	encendido inmediato sin centelleo	Accensione immediata senza luce pulsante
Service life	vida útil	Durata utile
Service life, electronic ballast	vida útil reactancia electrónica	Durata utile alimentatore elettronico
Not for general lighting, only for decorative purposes or special applications	No apto para iluminación general, solo para fines decorativos o aplicaciones especiales	Non per l'illuminazione generale, solo a fini decorativi o per applicazioni speciali
Fabric cable	Cable textil	Cavo tessile
Dimmable with Smart Home app	Regulable con la aplicación Smart Home	Dimmerabile con l'App Smart Home
Tunable white	Blanco ajustable	Bianco regolabile
OLED	OLED	OLED
With USB plug	Con conector USB	Con connettore USB
With USB connection	Con conexión USB	Con collegamento USB
Stepped dimmer	gradualmente más tenue	Dimmer regolabile
Safety plug	Toma de tierra	Presa di terra
variably adjustable	regulable	regolazione variabile
can be shortened once	acortable una única vez	accorciabile una volta
